

CE 890 Graduate Seminar

SPEAKER: Nathan Johnson (Dr. Rasheed's Distance Learning Grad. Student)

TOPIC: "Simplified Design: Lessons from a Design Office"

DATE: October 28, 2009

TIME: 4:00 p.m. (refreshments at 3:45 p.m.)

PLACE: 2144 Fiedler Hall

ABSTRACT

A look at what is involved in the day to day operation of a structural design firm, especially the design philosophy, serviceability and constructability issues that are imperative to the completion of a successful design but are not taught in a typical college classroom. Lastly, we will go through the some of the tips, tricks and methods used to make the typical designs simpler and more efficient including a case study where the proposed concepts are put into action.
